

### **Website committee report March 2023**

The basic aim is to make the existing website functional and up to date while the new one is being developed. (The Powerhouse is spending \$600,000 to develop a new website!)

The front page is now looking good and all the links from the slider and “At a Glance” links on the right-hand side are working as they should and are up to date.

Thanks to Gay for getting our available material on the website. Many items which are on the website did not appear when one attempts to access them via the new Menu item “Programs” or “Events”. This is now fixed.

Under the Spirituality heading Bob has recently got the Gospel Reflections done and the Suggestions Sheets are also there.

Richard McLachlan has scanned all the copies of The Mix, huge job, our thanks.

The “About Us” section now has the Presidents photos.

Catherine is planning to have 5 “The Human Face” offerings to be put up soon.

The menus are being revised to match our current offerings and development of the new website continues.

The luncheon advertisement is on the website and should soon show up on “Coming Up”. Only a limited number of events show automatically.
